STACKER B-9420-ST

The B-9420-ST label stacker is speciallydesigned for use in conjunction with Toshiba EX4T1 printer models.

☑️ Stacker applications

☑ Textile label stacking.

☑ Cardboard label stacking.

☑ Adhesive label stacking.

⚙️ Operation

☑ Manual: the stacker works without interruption as soon as it is switched on.

☑ Auto: the stacker is activated when the printer is printing labels and stops if it stops printing or has an error.

☑ It requires Interface B-EX700-IO IN/OUT to work in automatic mode.

☑ End of stacking control.
